

The San Francisco Tesla Society

Presents a free presentation

An Examination of Alternative Cancer Therapies

Sunday, June 11, 2000 1:00 p.m.
at 3220 Sacramento Street (near Lyon)
San Francisco, California

Current statistics indicate that at least one out of 3 Americans will contract some form of cancer in their lifetime. Frank Cuny, Director of California Citizens for Health Freedom will talk about California Senate Bill SB 2100 which he helped to create. If passed, it will remove legal statutes making it a criminal offense for a doctor to prescribe alternative cancer therapies in California. This is a landmark bill because it currently has the support of the California Medical Association.

We will also discuss the therapeutic merits of the Pacifica Yew plant and feature 3 videos about alternative cancer treatment modalities:

"Hoxey - How Healing Becomes A Crime"

This award winning video by Kenny Ausubel tells the story of Harry Hoxey and his amazing outlawed herbal formula currently undergoing clinical trials at the University of Texas.

"Rife Research Laboratory"

This video contains rare footage from the 1930's of California pathologist Royal R. Rife and his research into electronic cancer treatment.

"The Beam Ray Device

Construction, Operation and Effects on Selected Micro Organisms"
A video by James E. Bare, D.C. with experiments based on Rife Technology.

**IMPORTANT ! - The San Francisco Tesla Society WILL NOT MEET
IN JULY OR AUGUST. COME SEE US AGAIN IN SEPTEMBER.**
